

IJCAR 2008: Call For Workshop and Tutorial Proposals

IJCAR 2008 is the Fourth International Joint Conference on Automated Reasoning and will be held in **Sydney, Australia** in **August 2008**. IJCAR 2008 will merge the following conferences: CADE (Conference on Automated Deduction), FroCoS (Symposium on Frontiers of Combining Systems), FTP (Workshop on First-Order Theorem Proving) and TABLEAUX (Conference on Analytic Tableaux and Related Methods).

Workshops will be held on 10 August and 11 August.

Scope Workshop and tutorial proposals on IJCAR-related topics, as mentioned in the *Call for Papers* (<http://www.ijcar.org/2008/CFP.html>) are solicited. Proposals that promise to bring new topics into IJCAR, of either practical or theoretical importance, or provide a forum for more detailed discussion on central topics of continuing importance are highly welcome. Proposals that close the gap between automated reasoning and related areas, *e.g.*, formal methods or software engineering, are especially encouraged.

How to Propose Proposals must contain information sufficient for the programme committee to judge the importance, quality and community interest in the proposed topic. Each workshop or tutorial must have one or more designated organizers, and may have a programme committee as well.

Proposals must be limited to three pages and provide at least the following information: *Title*; *Description of the workshop topic and goals* (Why do you believe this is an interesting and significant topic?); *Intended audience* (From which areas do you expect potential participants to come? How many participants do you expect?); *Organization of the workshop* (Describe the intended format of the workshop, its expected duration (from half a day to two days) and preferred dates (August 10, 11, or both)); *Organizers' details* (Provide affiliations, backgrounds and contact details (email, etc.) of organizers and committee members)

Workshop proposals should be sent as plain text and as PDF to the workshop chair (michael.norrish@nicta.com.au) no later than 17 December 2007.

Important dates

Deadline for proposal submissions:	17 December 2007
Acceptance/rejection notification:	14 January 2008
Deadline for camera-ready copy of workshop notes:	14 July 2008
Workshop Dates:	10–11 August 2008

Workshop Chair: Michael Norrish (Michael.Norrish@nicta.com.au)
