641Subject index

Note: “n.” after a page reference indicates the number of a note on that page

achievement

and happiness 473

and pride 368–9, 373–4, 376, 380

acquiescence 33–4

Action tendency component 131, 174, 185

action readiness 171–2, 183–4

appetitive action tendencies 181–3, 185, 262–3

comparison with other components 212

component factors loadings and description 174–8, 181–2

Component Process Model 129

and Conceptual Metaphor Theory 418, 424

defensive action tendencies 181–3, 185, 262–3

definition 170–1

discrimination and classification 180–1, 183

emotion category differentiation 180–1, 183

emotion specificities and emotion comparisons 278, 317, 319–21, 323, 325, 332–4, 349–50, 474–6, 483–4, 488

feature selection, operationalization 171–4

global meaning structure 107–10, 117, 122

integration across components 213–14, 219–23

internal factor structure

APATHY VS ACTION factor 174–6

ATTACK VS AFFILIATION factor 174–6

DEFENSIVE VS APPETITIVE factor 176, 178–9, 182–4, 212, 214

DISENGAGEMENT VS INTERVENTION factor 176, 178–9, 182, 185, 212, 216

SUBMIT VS ATTACK factor 176, 179, 182, 185, 212, 214–16, 219–22

WITHDRAW VS SHOW OFF factor 174–6

language/culture specificities and comparisons 463–4, 466, 493

mapping onto overall factor structure 178–9, 182–3

in Natural Semantic Metalanguage 405, 407

adjectives

corpus-based studies 75–6

emotion lexicalization 57

future challenges and opportunities for the GRID paradigm 556

affective revolution 46, 410

agency

disgust 273–5, 277–9

happiness 473

pride 373

self-conscious emotions 367

aghyonia (anguish, anticipation), Greek 439–43, 448

Alamblak language 58–9

Amharic language 58

anger

anger cluster 40, 43, 87, 96

Conceptual Metaphor Theory 71–2, 410–15, 423

- semantic foci 415–18
- and disgust 273–80
- duration 242
- in global meaning structure 108, 110, 116, 118–20, 124–5
- and guilt and shame 390
- and irrationality 413–14, 416, 418, 423
- language/culture specificities and comparisons 50, 58–61, 328–52, 466, 472
- lexical semantics, illustration of studies 66–74
- in specific GRID components 138–9, 142–4, 148, 151–2, 154–5, 160, 163, 168, 170, 176, 181–2, 205–6, 227
- antecedent events of emotions 59–60
- anxiety
 - in global meaning structure 119–20
 - language/culture specificities and comparisons 355–64, 443
 - in specific GRID components 139, 144–5, 154, 181–2, 205, 218–26
- Appraisal component 131, 186, 206–9
 - comparison with other components 211
 - component factors loadings and description 190–1, 196–211, 216
 - Component Process Model 129–30
 - definition 13–17
 - discrimination and classification 203–6, 208–9
 - emotion category differentiation 190, 203–6
 - emotion specificities and emotion comparisons 317, 319–22, 332, 348–9, 370–2, 376, 474–5, 483–4, 487–8
 - feature selection, operationalization 186–9
 - global meaning structure 107–10, 116–17, 122–3
 - integration across components 211–14, 216–17, 219–24, 226–9
 - internal factor structure 190–9, 206–7
 - COPING ABILITY factor 196–9, 201, 208, 215
 - EXPECTED/FAMILIAR factor 197–201, 203–6, 208, 215
 - GENERAL VALENCE APPRAISAL factor 190–2, 199–200, 207, 211
 - GOAL RELEVANCE factor 197–9, 201, 215
 - NORM VIOLATION factor 197–9, 201, 203–6, 215, 219–21
 - NOVELTY APPRAISAL factor 190–2, 196, 198, 200, 207, 211, 216, 219–21
 - NOVELTY/CHANCE CAUSE factor 196–201, 203–8, 215
 - SELF VS OTHER CAUSE factor 197–9, 201, 204, 215, 219–21
 - VALENCE APPRAISAL factor 196, 198–207, 209, 212, 214–15, 219–21
 - language/culture specificities and comparisons 492
 - mapping onto overall structure 189, 199–203, 207–8
 - in Natural Semantic Metalanguage 405, 407–8
 - nonlinear effects 203, 217, 222
 - predictions 186–7, 189–90
 - results 190–206
 - social appraisals 508–11
- appraisal criteria 14–17
 - coping potential determination 15–17
 - implication assessment 15
 - modal emotions 19–20
 - normative significance evaluation 16–17
 - relevance detection 14–15
- appraisal theories 11–12, 29

- classic appraisals 507–9
 - and Conceptual Metaphor Theory 416
 - dimensional approach 283
 - facial expressions 513–14
 - GRID components 171
 - modal emotions 19–21
 - social appraisals 508–11
 - and types of disgust 273–4 *See also* [Component Process Model](#)
- Arabic language 56
- arousal dimension/AROUSAL factor 243–5, 520–60
 - circumplex model 262
 - dimensional theories 34–6, 38, 132
 - effects on peripheral indicators 264–5
 - emotion specificities and emotion comparisons 378, 381–2, 415–16, 418, 424
 - emotional self-report 282–3
 - energetic arousal 133–5, 137, 146–8
 - event-related potentials 265–7
 - EXPERIENCE AROUSAL factor 250–9
 - factor loadings and description 110–17
 - prediction by component factors 142, 153, 163, 179, 200–2, 215–16
 - relationship to other factors/dimensions 117–19, 138, 184
 - Geneva Emotion Wheel 284–5
 - in the global meaning structure 107–8, 110–18, 120, 122–5
